

SMART Maritime BINGO

Directions:

1. Stand up – move around. This is an ICEBREAKER!
2. Working with only one person at a time – talk to people in the room and get them to sign a letter block for you if they can answer the question or agree to the statement.
3. You DO NOT have Bingo!... If you get five down, across or diagonal. Keep getting signatures until you fill the grid!
4. We will play by calling on a random individual – then allowing that person to call on someone that will make getting Bingo! Easier for them - here's where five down, across or diagonal comes in. Place an X on the square if you have that person's signature on your grid as well.
5. Then that person will explain the answer to the question, or why they can agree to the statement and choose someone who works for them until someone gets Bingo!
6. Rules are subject to modification for time. Have fun!

SMART Maritime BINGO

- A. I have been on an aircraft carrier.**
- B. Knows that the restroom is called on a ship.**
- C. Knows what a sleeping area is called on a ship.**
- D. Knows the four cardinal directions on a ship.**
